Taxes

1. Property Tax Calculation

In New York State, the real property tax is a tax based on the value of real property. Counties, cities, towns, villages, school districts and special districts each raise money through the real property tax. The money funds schools, pays for police and fire protection, maintains roads, and funds other municipal services enjoyed by residents.

Market Value

Market value is determined by the [Department of Taxation and Finance](#) and reflects the amount of money a buyer would be willing to pay a seller for property offered for sale on an open market, over a reasonable amount of time, where both the buyer and seller are well informed and neither is under undue pressure to act.

Land value		\$260,000
Building value	+	\$415,000
Market value	=	\$675,000

Assessed Value

In New York State, each municipality is authorized to assess the property at market value or some fraction of market value. The assessed value is a uniform percentage of the market value of the property as of January 2 for any given year. [Equalization rates](#) are calculated each year to reflect that year's assessment roll and current market values for each assessing unit. For this property, the equalization ratio is: **100%**.

Land assessed value		\$260,000
Building assessed value	+	\$415,000
Assessed value	=	\$675,000

Exemptions

Westchester offers several [exemptions](#) that qualified homeowners can apply for, such as Veterans, Senior Citizen, Cold War Veterans, Volunteer Firefighters and Ambulance Workers, Limited Income Disability, or Home Improvement exemptions. Also, New York State School Tax Relief Program ([STAR](#)) provides homeowners who earn less than \$500,000 and own and live in their home with two types of partial exemptions from school property taxes.

Property Tax

Base tax is calculated by multiplying the *assessed value* with the corresponding [millage rates](#) and it is an estimate of what an owner **not** benefiting from tax exemptions or reductions would pay.

Tax description	Assessed value	Millage rate	Tax amount
Base tax	\$675,000	x 21.2384	= \$14,336

Taxes with exemptions represents the amount the present owner pays, including exemptions or reductions.

Tax description	Assessed value	Exemption	Taxable value	Millage rate	Tax amount
Westchester County	\$675,000	- \$0	= \$675,000	x 2.3591	= \$1,592.37
Town of Mamaroneck	\$675,000	- \$0	= \$675,000	x 0.5427	= \$366.34
Village of Mamaroneck	\$675,000	- \$675,000	= \$0	x 5.7007	= \$0

Village of Mamaroneck	\$075,000	- \$075,000	= \$0	x 12.6359	= \$0
Mamaroneck Ufsd School District	\$675,000	- \$0	= \$675,000	x 12.6359	= \$8,529.24
Taxes with exemptions					= \$10,488

In addition to local governments in New York State, there are **town special districts**. These are used by towns to address the increased residential needs brought on by suburban growth that are not occurring on a townside basis.

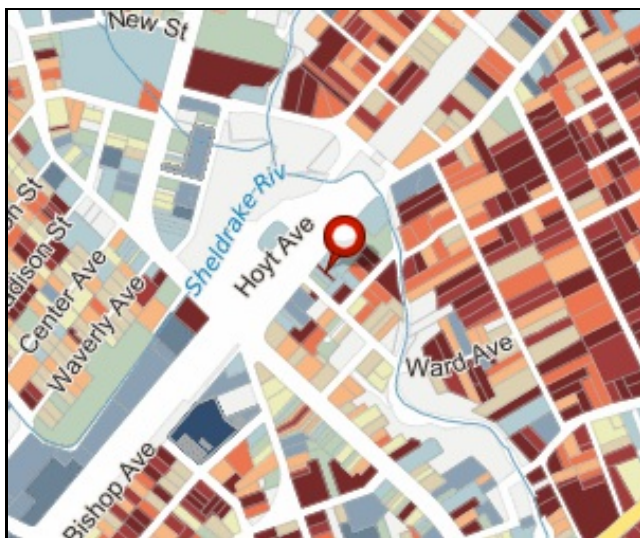

Special districts apply special district tax rates for water, drainage, fire protection, lighting, park, refuse and garbage, sewer and others.

Current tax is calculated by adding to current tax the special district tax, and represents the total amount an owner pays including exemptions or reductions.

Taxes with exemptions		\$10,488
Special district total tax	+	\$639
Current tax	=	\$11,127

Actual taxes might differ from the figures displayed here due to various abatement and financial assistance programs. For more information please visit [The New York State Department of Taxation and Finance](#) or Westchester County [website](#).
